Health & Well-being Management

Master of Science

RIT | Rochester Institute of Technology

 **WSHN**
Wegmans School of Health and Nutrition

The Master of Science in Health and Well-being Management prepares you for a career in health and well-being program design, administration and research.

- ▶ 12-month program
- ▶ Part-time options
- ▶ Some courses on-line

Two emphasis options allow you to meet your goals. Both options prepare you for a career in health and well-being and offer opportunities to develop your research expertise.

Emphasis 1: Content Development, Implementation, & Evaluation attends to the infrastructure of a health and well-being program, focuses on development of content and domain expertise (e.g., exercise, behavior, nutrition).

Emphasis 2: Health & Well-being Program Management relates to the structure or framework of a program, managing the health and well-being unit within corporate or self-employment venues.

In addition to the core curriculum, shown below, and to customize the program to your career goals, you will take 12-15 credit hours of electives. Visit www.rit.edu/HealthWellbeing-MS to see the possibilities!

Course Number	Course Name	Credit Hours
WSHN 700	Research Methods in Health & Well-being	3
WSHN 701	Health & Nutrition Education & Evaluation	3
